

bfl::PFPrediction

```
graph BT; A[bfl::PFPredictionDecorator] --> B[bfl::PFPrediction]
```

A UML class diagram illustrating inheritance. At the bottom is a gray-shaded box labeled 'bfl::PFPredictionDecorator'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'bfl::PFPrediction'. This indicates that 'bfl::PFPredictionDecorator' inherits from 'bfl::PFPrediction'.
